SGMA: A Detailed Look at Inadequate and Probationary Subbasins

June 5, 2025 • 10:00 am - 12:00 pm (PST)

A livestream seminar presented via Zoom.

This livestream seminar is a presentation of the California Chapter, ASFMRA, led by **Stacie Ann Silva** of **Altum Aqua Logic, LLC**. It will offer a detailed look at the seven California subbasins whose Groundwater Sustainability Plans have been deemed inadequate by the Department of Water Resources; two of which have been placed on probation by the State Water Resource Control Board. The online experience will provide attendees with a detailed understanding of the status of the Chowchilla, Delta-Mendota, Kaweah, Kern County, Pleasant Valley, Tulare Lake and Tule Subbasins, their challenges, and potential management actions. Throughout the seminar, attendees will have the opportunity to ask questions and deepen their understanding of the Sustainable Groundwater Management Act and its impact on these seven areas.

Stacie Ann Silva has been working in the California water industry as a consultant for six years. She is the Principal of **Altum Aqua Logic, LLC** where she tracks activity in over 90 GSAs in over 50 Subbasins across the state. ([See more](#)).
